Debiting of fees and charges

Transaction based fees and charges and cheque fee charges are debited to the account on the last day of each month. Direct charge fees by third-party ATMs are debited to the account at the time of acceptance. Non-standard fees and charges are generally debited to the account at the time of relevant activity.

Direct charging at third-party ATMs

If you use an ATM that is operated by a third-party (including international), you may see the charge for using that ATM on the screen before you decide whether to proceed with the transaction. This is not a WAW transaction fee. If you decide to accept that fee, it will be separately debited to your account at the time of the transaction and will be shown on your statement.

Customer Benefit Program

The BankWAW Customer Benefit Program (CBP) is a discontinued scheme that rewards customers based on the amount of banking they have with BankWAW.

Each month the average balances of all eligible savings, term deposit and loan products are calculated to form an average aggregate account balance.

This balance is then matched to a corresponding benefit (refer table 1), which is used to rebate eligible transaction fees generated by the account for that month.

The benefit is proportionally applied to your account, based on the products types held by the account holder and transaction activity of these products during the month.

The following discontinued products are eligible for CBP rebates.

- S1 – OnCall Saver
- S2 – Star Saver
- S3 – Business Transaction Account
- S4 – Visa Debit Account
